

FIG. 1

FIG 2A

FIG. 2B

The figure consists of three square panels arranged horizontally. The left panel shows a grayscale image of a lighthouse and a small house. The middle panel shows the same image converted to a binary (black and white) format, where the lighthouse and house are white against a black background. The right panel shows the result of a thresholding operation, where the lighthouse and house are white, and the background is black, but the image is also showing some noise or artifacts.
